# MINITHERM® THE FEATHERWEIGHT WELDING AND HEATING TORCH

The MINITHERM<sup>®</sup> torch range has been developed to meet the need of trade and industry for a small injector torch to handle special jobs.

A large number of torch inserts with the most different flame characteristics and flame powers offer a universal, well rounded, broad spectrum of applications from the micro flame which is hardly visible to the naked eye right up to powerful welding flames.

In contrast to conventional hand gas torches, the drastically lower weight of the handle and inserts allows fatigue-free continuous work over long periods.

This is especially important in pipe-line work, in production of jewellery, dental laboratories and fine engineering as well as in mass production of hand welded, hand brazed or heated components. Welding, brazing and heating in difficult positions and hard to reach locations can usually be carried out with adequate freedom of movement and control to give high quality results due to the small size of the handle and the various inserts.

Furthermore, the MINITHERM<sup>®</sup> Hand-Cutting-Torch allows you to cut metal sheets up to 25mm material thickness.

#### The MINITHERM® torch range includes the following products:

- Handles and shafts
- Heating-Inserts (needle, micro, standard)
- Ring-Torches
- Forked-Torches
- Cutting-Torches
- Accessories

In addition to this, our experienced staff will be happy to assist you and can also support in case of special requests. Please do not hesitate to contact us.

# The featherweight welding and heating torch

#### Handle MINITHERM

#### Handle MINITHERM with 3m hoses

#### Version:

- MINITHERM handle with shaped grip for a secure grip position.
- One-handed operation thanks to V shaped valve arrangement.
- Fine adjustment spindles in Oxygen and fuel gas valves.
- Can be used with all fuel gasses.

#### **Application:**

• For use with brazing heating and welding inserts type MINITHERM with Fuel gas/Oxygen or fuel gas/compressed air.

welding and heating torch

### PROPANE, METHANE / OXYGEN; HYDROGEN / OXYGEN OPERATING DATA, TECHNICAL DATA, PART NUMBERS

#### Needle insert MINITHERM G3

#### Injector MINITHERM G

#### Version:

- One piece injector (Messing chromed) with cone connection adapter for micro needle inserts Type G. The one-piece needle insert consists of a Luer Lock brass cone adaptor piece, Nickel plated, with a brazed capillary tube stainless steel nozzle.
- Fits all handles type MINITHERM.

- Processing fine sheets in toy and model building.
- Production of jewellery, dental products and small components.
- Processing printed circuits and wire in the electro industry.

#### MICRO HEATING INSERTS MINITHERM ACETYLENE, HYDOGEN, PROPANE, METHANE, MAPP / OXYGEN OPERATING DATA, PART NUMBERS

Injector MINITHERM for Micro insert

#### Version:

- Single piece injector (chromed brass) with threaded connection adaptor for micro inserts Type M. Copper inserts with hammered nozzle.
- Fits all handles type MINITHERM.

- Processing fine sheets in toy and model building.
- Production of jewellery, dental products and small components.
- Processing printed circuits and wire in the electro industry.

welding and heating torch

#### Heating insert MINITHERM Z-PM

#### Version:

- Chromed brass injector with O-Ring handle seals.
- Pacified Copper heating nozzle (alternatively: chemically Nickel plated), with hammered mouthpiece.
- With central flame outlet (single jet nozzle) and mixing system (injector) using under pressure mixing principle.
- Fits all handles type MINITHERM.

#### **Application:**

- Heating and brazing applications even in out of position and hard to access places. Welding only with Acetylene.
- Production of jewellery, dental products and small components.
- Mass production hand-made or heat treated work-pieces.

#### **HEATING INSERTS**

MINITHERM FKZ-PMY, FK-PMY PROPANE, METHANE, MAPP / OXYGEN OPERATING DATA, TECHNICAL DATA, PART NUMBERS

The featherweight welding and heating torch

#### Heating Insert MINITHERM FKZ-PMY 1 and 2

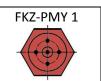

#### Version FKZ-PMY 1 and FKZ-PMY 2:

- Brass, chromed insert.
- Interchangeable Copper multi-jet heating nozzle FKZ.
- Fits all handles type MINITHERM.

#### **Application:**

- Making pipelines and heat exchangers.
- Installation and assembly work.
- Production lines and assembly belts.

- Processing laboratory (quartz) glass.
- Making jewellery.
- Assembly of household equipment.
- Producing water and gas manifolds.

#### **HEATING INSERTS**

MINITHERM FKZ-AH, FK-AH, B3-AH ACETYLENE, HYDROGEN / OXYGEN OPERATING DATA, TECHNICAL DATA, PART NUMBERS

#### Heating Insert MINITHERM FKZ-AH

#### Version FKZ-AH :

- Brass, chromed insert.
- Interchangeable Copper multi-jet heating nozzle FKZ.
- Fits all handles type MINITHERM.

#### **Applications:**

- Making pipelines and heat exchangers.
- Installation and assembly work.
- Production lines and assembly belts.

- Processing laboratory (quartz) glass.
- Jewellery making.
- Assembly of household equipment.
- Producing water and gas manifolds.

Table torch holder MINITHERM

Table torch holder MINITHERM with insert

#### Application table torch holder MINITHERM:

- For MINITHERM handles with hanging knob (71605770) for comfortable storage in ready to use inclination.
- Especially suitable for use with the larger MINITHERM welding, brazing and heating inserts as well as the MINITHERM forked torches.

#### Application Magnet-table torch holder MINITHERM:

• For MINITHERM standard handle without hanging knob (71606109).

#### Version:

• Consists of a heavy, cast steel stand foot with seven numbered magazine holes for all MINITHERM micro Inserts, 45° angles support rack with screwed on disc magnet and chromed holding plate for mounting onto the MINITHERM handle.

#### Version electrical automatic table lighter:

- Battery powered one handed troch ignition box with easily operating ignition function on/off button, ignition spark chamber with ignition electrode and main on/off switch.
- Dimensions: [H x W x L] 70x52x90 mm.
- Batteries: 2 x 1.5 Volt.

Part number:

welding and heating torch

#### HEATING INSERTS GLASS NOZZLE HEADS WITH THREADED CLAMPING RINGS HYDROGEN / OXYGEN TECHNICAL DATA, PART NUMBERS

#### MINITHERM Glass top piece with clamping ring threads

#### Version:

• MINITHERM:

Injector chemically Ni plated, stainless steel threads, clamping ring of stainless steel.

- For clamping quartz glass nozzles (Nozzles are not in our scope of supply).
- Heating and melting of quartz and Quartz glass.

#### **FORKED TORRCHES**

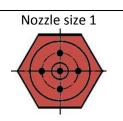

MINITHERM FK-PMYE; FK-AH FUEL GAS (PMYE – AH) / OXYGEN OPERATING DATA, TECHNICAL DATA, PART NUMBERS

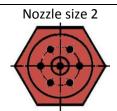

#### Version:

- Two brass torch pipes with brazed nozzle connection nipples.
- Exchangeable Copper multi-jet heating nozzles.
- Stainless steel distributor piece.

- Building pipelines and heat exchangers.
- Assembly and installation work.
- Final installation household equipment.

- Production of water and gas manifolds.
- Production lines and assembly belts.
- Glass processing.

#### RING TORCHES MINITHERM C PROPANE, METHANE, MAPP - ACETYLENE / OXYGEN OPERATING DATA

The featherweight F welding and heating torch

#### Ring torch MINITHERM type C

#### Version:

- Small ring torch with threading opening for heating of pipes.
- Torch ring and mixing tube made of Copper piping, chemically Ni plated.
- To fit handle type MINITHERM.

- Building pipelines and heat exchangers.
- Assembly and installation work.
- Manufacture of gas and water manifolds.
- Production lines and assembly belts.
- Processing glass.

#### HAND-CUTTING-TORCH & CUTTING NOZZLES MINITHERM 2207 & A-BF, A-BK; PB-K/PMY PROPANE, METHANE, MAPP / OXYGEN; ACETYLENE / OXYGEN OPERATING DATA; TECHNICAL DATA, PART NUMBERS

#### Cutting-Torch MINITHERM 2207

Cutting-Nozzle A-BF

#### Version:

- Cutting Torch for handle MINITHERM for cutting up to 25 mm.
- Nozzle Type A-BF and A-BK: Block-Cutting-Nozzles for use of Acetylene and Oxygen.
- Nozzle Type PB-K/PMY: Block-Cutting-Nozzles for use of Propane, Methane, MAPP and Oxygen.

#### **Application:**

• Cutting of thin metal plates up to 25mm.

#### IGNITION UNITS FOR HAND TORCHES MECHANICAL GAS ECONOMISER PROPANE, METHANE, MAPP - ACETYLENE / OXYGEN OPERATING DATA, TECHNICAL DATA, PART NUMBERS

Mechanical gas economiser

Mechanical gas economiser with safety valve to monitor the pilot flame

#### Version:

- The gas economiser consists of a small casing in pestle-shut-off valves for Oxygen und fuel gas are housed protected from dust and damage –, the hanging bracket for the torch (gas stop when torch sits in bracket), the permanent pilot flame and the installation plate. Inlets and outlets for Oxygen and fuel gas hoses.
- There is also a gas economiser equipped with a safety valve and thermal element to monitor the permanent pilot flame.

#### **Application:**

• The gas economiser is conceived for work-places equipped with lightweight brazing, heating and welding torches with frequent or regular pauses in the work with the flame, e.g. in mass production of soldered parts.

welding and heating torch

The featherweight

#### IGNITION UNITS FOR HAND TORCHES ELECTRICAL GAS ECONOMISER PROPANE, METHANE, MAPP - ACETYLENE / OXYGEN TECHNICAL DATA, PART NUMBERS

#### Electrical gas economiser

#### Version:

• The electrical gas economiser consists of a small electrical cabinet with integrated ignition transformer and solenoid valves mounted on the outside with inlet and outlet connections for Oxygen and fuel gas hoses. An electrical lead from the cabinet with shielding cover runs through and to a table stand with integrated ignition head and torch holder. When the torch is hung up, the solenoid valves shut off the gas supply. When the torch is picked up the solenoid valves open and the troch can be lit directly at the ignition head. The time for ignition after picking up the torch can be set on a time relay.

#### **Application:**

• The gas economiser is conceived for work-places equipped with small brazing, heating and welding torches type MINITHERM or STARLET and offers safe operation of the torch at work stations with frequent pauses in the work. Very safe as no open pilot flame exists.

The featherweight welding and heating torch

#### ACCESSORIES SHAFT; ADJUSTMENT VALVES; DISTRIBUTION PIECES ALL GAS TYPES OPERATING DATA, TECHNICAL DATA, PART NUMBERS

# Adjustment valve – fuel gas

#### Version:

- Valve shaft made of aluminum
- Incl. adjustment valves.

#### Application:

• For use in mechanised (automated) operation of heating, welding and brazing torches.

#### Version:

- With hand-wheel.
- Brass valve body.

#### **Application:**

• On and shut-off valve to be installed on torch shafts, pipe lines or gas supply panels.

The featherweight welding and heating torch

#### ACCESSORIES SAFETY DEVICES AT GAS TAKE-OFF POINT / COUPLINGS OXYGEN; FUEL GAS OPERATING DATA, TECHNICAL DATA, PART NUMBERS

#### Safety device DGN for Oxygen

## Version: DGN-DK: Flow direction for mounting on gas take-off points. Inlet: cap nut – Outlet: Coupling pin following EN 561 (for D4 pin). Filter, gas non-reverse flow valve, flame arrestor, post flow stop valve. DGN Flow direction for mounting on gas take-off points. Inlet: cap nut – Outlet: male thread. Filter, gas non-reverse flow valve, flame arrestor, post flow stop valve. DG 91 N Flow direction for mounting on gas take-off points. Inlet: cap nut – Outlet: male thread. Flow direction for mounting on gas take-off points. Inlet: cap nut – Outlet: male thread. Filter, gas non-reverse flow valve, flame arrestor, post flow stop valve.

➤ High flow rate.

#### **Application:**

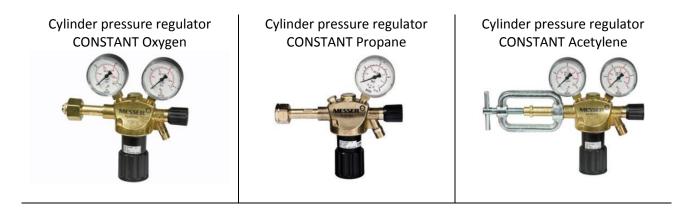

• To protect against creeping and sudden gas back-flow and against back-fires.

#### **MINITHERM®** The featherweight welding and heating torch

ACCESSORIES CYLINDER PRESSURE REGULATORS TYPE CONSTANT OXYGEN; COMPRESSED AIR; FUEL GASES OPERATING DATA, TECHNICAL DATA, PART NUMBERS

#### Version:

- Tested to BAM (Federal German Institute for material research and testing).
- With integrated central filter.
- High regulation accuracy even with low operating pressures and take-off quantities.
- Double protected outlet pressure limitation with blow-off valve and toothed arrestor.
- Single stage regulator (also available as two stage regulator).

#### **Application:**

• For mounting on gas cylinders to reduce the cylinder pressure to the working pressure.

welding and heating torch

The featherweight

#### ACCESSORIES DOUBLE THREAD CONNECTORS; 90°-ANGLE CONNECTIONS SPARE PARTS; HOSES TECHNICAL DATA, PART NUMBERS

Double thread connectors

#### Version:

• Brass with double-ended external thread and internal sealing cone.

#### **Application:**

• For the connection of Oxygen, Fuel gas, Compressed air and Cooling water hoses with metallic sealing connection threads.

#### Angle connections

#### Version:

• With cylindrical inner or external threads and 90° bend.

#### Application:

• For the connection of Oxygen, Fuel gas, Compressed air and Cooling water hoses with metallic sealing connection threads.
